DETAILED ACTION

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art combination of Packes, Walker, Boushy and Kelly fails to disclose or render obvious, receiving, in the gaming apparatus a first loyalty program instrument storing computer readable data representing loyalty points earned from a first activity not associated with the gaming apparatus; receiving activity data associated with a second activity by the patron of said gaming establishment and issuing a computer readable loyalty program instrument and storing the combined loyalty points thereon as computer readable data, in combination with the other claimed limitations.

Specifically, Packes does not teach storing comp information directly on the loyalty instrument, as required by Applicant's invention (Specification, Page 7, Lines 5-10 requires such information to be stored in the form of a ticket with visible data.) While Walker teaches storing frequent flyer miles on a ticket, Walker does not teach that the ticket is compute readable. Thus, Walker does not cure Packes' shortcoming. Additionally, Packes in view of Walker does not render obvious the initial "receiving" step because these references do not teach receiving a loyalty instrument storing computer readable data representing loyalty points earned from a first activity not associated with the gaming apparatus. At best, Packes teaches that a player may remove a tracking card from a slot machine and then hand it to a blackjack dealer to continue his gaming session. However, handing a tracking card to a blackjack dealer, a physical person, does not teach receiving a loyalty instrument in a gaming apparatus storing data representing loyalty

points earned from a first activity not associated with the gaming apparatus. In other words, Packes' dealer, a person, cannot be fairly interpreted as a gaming apparatus.

Furthermore, Examiner believes that the Office action's usage of obvious design choice for storing information on a computer readable medium in the manner required by Applicant's invention should not be maintained because it is not reasonably supported by the prior art of record & Applicant's Specification. Moreover, neither Boushy nor Kelly cures the above shortcomings because they merely teach communication between different venues using the Internet & a prize menu, respectively. Thus, Examiner believes Applicant's invention is nonobvious & allowable.

Claims 15-41, 43-57 & 104-110 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
